67 STYLES

NEW

99 COLOURS

The 2017 Gildan® Line proves that bigger can be better.

Our **6 new styles** mean there are even more ways to look great at work or play. And by bringing our colour count up to **99**, we've added to an already impressive lead over the rest of the market.

With 55 trendy colours in style 64000 and 3 new styles, the new Gildan Softstyle line offers more choice than ever.

WHICHEVER DECORATING PROCESS YOU CHOOSE, GILDAN® GIVES YOU THE HIGHEST QUALITY CANVAS.

This catalogue features recommended decorating processes to get the best result for your artwork.

DIRECT TO GARMENT
A specialized inkjet printer applies inks directly to the garment, where the fibres absorb the ink to create a very durable design. It works well for short runs or full-colour printing on high stitch density garments.

EMBROIDERY
Embroidery creates needle-and-thread works of art. It delivers a level of sophistication or perceived value to any project, and is a great choice for heavier weight garments that are not highly elastic.

HEAT TRANSFER
Heat and pressure combine to transfer images from high-release paper to garments. It works well on light-colour cotton, cotton blend and polyester fabric, or when you have shorter runs or turnaround times.

SCREEN PRINT
Screen printing (or silk screening) uses stencils and ink to create designs on garments. Consider this approach for large-volume projects that involve cotton or cotton-blend fabrics.

SUBLIMATION
Also called dye sublimation, it uses heat-sensitive inks to create full-colour, photo-quality reproductions of digital images that last. Sublimation is well suited for 100% polyester garments.
